A large illustration of a green snake with a yellow belly, coiled in a large 'U' shape. The snake's body is composed of 25 rectangular segments. Each segment has a small green vertical line extending downwards, representing a tail. The segments are arranged in a path that starts at the top left, goes right, then curves down and right, then left, then down and left, and finally right at the bottom. There are four grey rectangular boxes placed on the snake's body: one on the top horizontal segment, one on the right vertical segment, one on the bottom horizontal segment, and one on the left vertical segment. The background is white with green dotted lines forming a large frame. There are small green tufts of grass scattered throughout the scene. On the left side, there is a brown tree trunk with some green grass at its base. At the bottom left corner, there is a cartoon illustration of a green frog's face with large eyes and a small smile.

A large illustration of a green snake with a yellow belly, coiled around a tree trunk. The snake's body is divided into 25 rectangular segments, each containing a small green vertical line. The snake is positioned on a brown tree trunk with green grass tufts. The background is a light green dotted border.
